Costa Rica

Costa Rica is considered the healthiest country in South America. While writing their constitution, they decided not to have an army in the country. As a result, the amount of money spent on the defence of the country could be used for improving and providing basic needs to the people. The Costa Rican government provides basic amenities like water, food, education, sanitation and housing to all its citizens. Health education is an essential part of education at all levels.

- i) Which country is considered as the healthiest country in South America? **1 mark**
- ii) What are the basic amenities provided by Costa Rican government? **1 mark**
